

Teaching Speech in Lower School

Kindergarten

Sarah Harper Abernethy, Teacher

In kindergarten the child is made aware of speech and its function.

There are four definite objectives in speech work at this level.

1. To develop in each pupil a voice which as nearly as possible approximates the voice of a hearing child of the same age.
2. To develop the elementary speech sounds.
3. To develop the ability to combine smoothly and fluently the speech sounds.
4. To develop a vocabulary which will enable the child to express his elementary wants and ideas.

When the child becomes aware that he has a voice and has also developed the ability to imitate, babbling ("Bu-bu-bu-bu") is the first exercise used to strengthen and modulate his voice. Later, time is spent in breathing exercises in an effort to develop good breath control, so important in the production of intelligible speech. Daily tongue gymnastics are a necessary factor in developing flexibility and control of the tongue.

The children always use group amplification for the specific speech lessons. In the development of speech sounds the teacher and the child are seated before a large mirror so that the child can easily see both what the teacher does and what he himself does. The child feels the sound vibrations by placing his hand on the teacher's face, thus employing the use of visual and tactile senses as well as the residual hearing.

Later the children are exposed to the printed form of the speech sounds through the use of sandpaper letters. These are used both for speech and speech reading and are given both singly and in combinations.

By constant repetition and use of certain expressions, the children soon learn to say: "hi," "bye-bye," "home" and other words as they are developed.

Second Year

Sharon Stellwagen, Teacher

The second year of speech training combines review, development and the requirement of intelligible spontaneous speech. The speech sounds learned in kindergarten are reviewed and new and more difficult sounds are developed. Spontaneous use of classroom expressions are expected from each child. Speech drills are practiced to facilitate a smooth combining of speech sounds into words. Typical of the many drills used are: combining the consonants with the syllable "um" and a vowel with a consonant, using the consonant both initially and finally.

Many new words are introduced in the course of the year. Parts of the body, numbers, colors, toys, clothing and food are some of the categories concentrated upon. Verbs, nouns and adjectives commonly used to express children's activities and needs are taught. Gradually the children begin to put the words together to form sentences and by the end of the second year are able to speak in one and sometimes two related sentences.

Third Year

Nancy Keim, Teacher

During the third year the speech program contains the same expedients as the previous years with additional attention given the aesthetic nature of speech. The children are encouraged to think in terms of spoken language, to increase the intelligibility of their speech and the habit of articulating well and to develop further the skills of speech.

The children are held responsible for the elements they have learned and are urged to put this knowledge to work independently in attacking a new word.

Rhythm and accent are given more concentrated consideration at this level. Economy of motion in articulation is stressed as well as suitable intonation and sequence pattern of activities such as poems, songs and the pledge to the flag.

California School for the Deaf, Riverside

Volume 9 April Number 5

"Now Hear This..."

Much has been written and said about academic programs in schools for the deaf, but not too much has been said about the resident halls and the programs which are conducted in that area. I feel that you, as parents, should have a better understanding of the programs presented in the dormitories and how they affect your child or children. It is our intent to establish an environment which is healthy and at the same time constructive. To do this we hold guidance classes for the older boys and girls once each week. We employ the use of many fine educational films on sex, personal hygiene, and behavior. It is also important to know that all of this material is presented under the guidance of a psychologist and experienced counselors.

Physical activities are taken care of through a well organized intra-mural program which fulfills the basic needs of exercise for every boy and girl in this school. The most proficient take up inter-school athletics when they become older. Through organization, competition becomes keen between dormitories and even teams in the same dormitory. We feel that learning to win and lose are basic in the development of good character. To the boy or girl who is not the good loser and who has other social problems, we devote the most time.

The most basic and yet the most important function of every counselor is the counseling of each individual to meet his needs. The counselors are also available to give information and advice to parents in dealing with their children.

In the routine of every day living the children in the resident halls learn to share responsibilities such as keeping their rooms

clean, keeping their beds made, and their clothes picked up. They also share the experience of living together which can be very difficult without the proper guidance.

Summing up this brief sketch of the programs carried on in the residence halls, it is necessary that the counselors, in order to carry out their work, must be trained in human relationships, hygiene, administration and supervision. In addition, and perhaps most important of all, a counselor must serve as a substitute parent with a heart full of love and ears big enough to hear all the problems which occur daily in the lives of children.

James A. Hoxie

Assistant Superintendent

Speech in Lower School

Continued from Page 1

Colloquial expressions are included for a more natural and well balanced vocabulary. These are used incidentally in appropriate situations so that the children may get a feeling and sense of their use.

It is hoped that some degree of proficiency is gained with the children depending on their speech in normal daily living.

Fourth Year

Mrs. Doris Taylor, Teacher

Speech training during the fourth year in school consists primarily of refining the skills previously developed and introducing those skills necessary for the production of fluent speech.

After the children are able to blend speech sounds into words it is important for them to be able to put these words together into phrases and sentences so that the result will be fluent, intelligible speech. Much practice in proper phrasing, accent and intonation or inflection needs to be given to accomplish this.

The children need to have a knowledge of where to phrase as well as the ability to control their breath in such a way that the intake of breath coincides with the beginning of a new phrase. This helps to prevent the speech from being choppy and difficult to understand.

The speech of deaf children often has a monotonous quality unless a great deal of training is given to both accent and intonation or inflection. The piano is used as an aid in developing these. The children, by feeling the vibrations of a piano being played, learn to discriminate an accented chord from an

unaccented one and a chord of high frequency in contrast to one of low frequency. The knowledge of this is transferred to their own speech production and in time the skill of accenting the proper syllable or syllables of a word and the ability to raise or lower the voice to convey the true meaning of an expression or sentence becomes meaningful in their effort to produce intelligible speech. (The Lower School News in this issue highlights their department's speech work.—The Editor)

CSDR Math Teacher Gets Grant

Lawrence Newman, mathematics teacher at CSDR, has been awarded a \$1,160 grant from the National Science Foundation for summer study at Gallaudet College in Washington, D. C.

Mr. Newman will study modern mathematics at the college from July 6 to August 28. He is one of 40 to receive grants out of 250 applicants from all over the United States.

Mr. Newman also will attend the Centennial Reunion at Gallaudet from June 28 to July 5 and serve as a delegate to the National Association of the Deaf convention July 5-11 at the college. His wife and four children will accompany him east.

The Cover

The cover was designed in commercial art class by James Hernandez, a senior student. The presswork was done by the offset classes.

COLLEGE NOTES

From Riverside City College

Good news! Mr. Washburn has a new son. He was born on March 14 and his name is Peter. Mr. Washburn was so proud that he brought us a box of candy to celebrate.

Gregory Brown will fly to Washington, D.C., on May 1 to participate in the Deaf Olympic Wrestling Tournament. He hopes that he will qualify so that he can take part in the Olympics in 1965.

Mark McCrory has also been wrestling. He has been in meets at the Naval Base in San Diego and at Chaffey Junior College.

David Dobrovech continues on the track team. His average time in five meets for the 880 is 2:02.8. He, too, hopes to qualify for the Deaf Olympics in 1965.

Diane Bates received a fifty-dollar scholarship from a local women's club because of her general good work.

I also received a fifty dollar grant from the Graphic Arts Department at Riverside City College.

We, who are enrolled at Riverside City College, would like to say to all of our friends at Gallaudet and at the California School for the Deaf, Riverside: Have a happy summer vacation and take care of yourselves.

Frank Longbotham

WE LEARN TO SPEAK

wh	whar					
p	par		pou			
f	far	fo'o	fou	o'of		
k	kar	ko'o	kou			
m	mar	mo'o			arm	farm
th				o'oth	outh	mouth
o'o						
ou						

Class A

We can talk:

I know.
 I forgot.
 That's mine.
 Good-bye.
 I'm fine.
 May I have some more, please?
 May I have some water?
 We love the flag of red, white and blue.
 Happy birthday to you.
 Happy birthday to you.
 Happy birthday to ———.
 Happy birthday to you.

Class C

We say and play:

Run, run, run.
 Hop, hop, hop.
 Jump, skip.
 Don't stop.
 One, two, three.
 I can jump.
 One, two, three, jump.
 One, two, three.
 I can hop.
 One, two, three, hop.

Class D

We are learning the sound of n. It is nasal and its name is en.

n-	- n -	-n
on	afternoon	no
not	sunny	one
name	Sunday	ten
nine	Monday	seven

I know. I don't know. What's your name?

The Eencie Weencie Spider

The Eencie Weencie Spider went up
 the water spout.

Down came the rain and washed the
 spider out.

Out came the sun and washed away
 the rain.

The Eencie Weencie Spider went up
 the spout again.

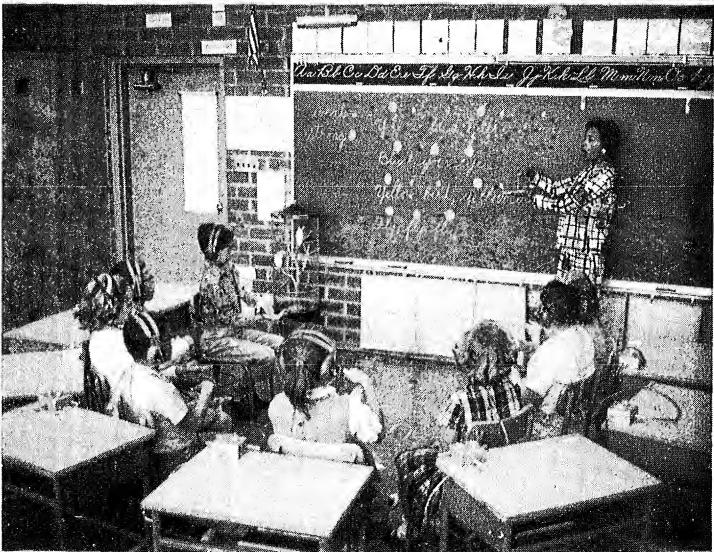

Class F

We learn the speech sounds.

We learn to accent.

We learn to phrase.

Syllables:

no'o	no'o	no'o
no-e	no-e	no-e
nou	nou	nou
nee	nee	nee
ni-e	ni-e	ni-e
no'o	no-e	nou
no'o	no-e	nee
no'o	no-e	ni-e
nee	no'o	no-e
nou	no-e	ni-e

Class H

Little Robin Redbreast

Little Robin Redbreast sat up in a
tree,
Up went Pussy cat, and down went
he,
Down came Pussy cat, away Robin
ran,
Said little Robin Redbreast,
"Catch me if you can."

Class I

A Nursery Rhyme

Baa, baa, black sheep
Have you any wool?
Yes, Sir, Yes, Sir, three bags full.

One for my master, one for my dame
And one for the little boy
That lives in our lane.

Class J

The Days of the Month

Thirty days has September,
April, June and November;
All the rest have thirty-one,
Except February alone,
Which has twenty-eight days
And twenty-nine in each leap year.

Class K

Pledge of Allegiance

I pledge allegiance to the Flag of
the United States of America and to
the Republic for which it stands; One
nation under God, indivisible, with
liberty and justice for all.

Class L

Ten Little Indians

One little, two little, three little
Indians;
Four little, five little, six little Indians;
Seven little, eight little, nine little
Indians;
Ten little Indian boys.

Class M

Elementary School News

SCIENCE STUDY

Insects

Grasshoppers, bees, mosquitoes, daddy-long-legs and ants are insects.

Margaret Ryan

Flowers

In the spring we see many kinds of wild flowers.

Charleen Biessener

Trees

A tree is a big plant.

Michael Owens

Trees

There are many kinds of trees. Some trees stay green all year. Some trees lose their leaves in autumn.

Paulette Fleming

Plants

We, planted tomato, bean, pumpkin daisy, swiss chard, and pear seeds. We watched the little plants come up. They had leaves. We put some plants into red ink. We saw how the roots took in water.

Rodney McBrearty

Signs of Spring

In spring the days get longer. Flowers and grass start to grow. The trees get buds and leaves in spring. The flowers are pretty. The sun is warm. Children fly kites in spring. Boys play baseball in spring.

Norma Weaver

Wheels

We did an experiment about work. We learned that it is easy to move things up and down by wheels. Wheels make work easier.

John Yakub

The Pulley

We did an experiment with the pulleys. We used three wheels and a rope. We pulled a chair up with the pulley. We learned that we could lift heavy things with a little

pull. Pulleys make work easier.

Diana Mesa

Magnets

A magnet can pick up things made of iron. It cannot pick up paper, rubber or cloth.

Richard Barron

Snowflakes

A snowflake is frozen water vapor. It always has six sides or points. No two snowflakes are alike. I like snowflakes because they are very pretty.

Tom Hawkins

Light

Light moves in a straight line. It can be bounced back. It cannot go through many things, so we see shadows of things.

Lance York

Sunlight

Sunlight is made of many colors. If you held a prism in the sunshine, you could see colors on the ceiling.

Ronnie Bryan

Science Experiments

I put a small cloth in the bottom of a large glass. I turned the glass upside down. Then I pushed it down into the water. I pulled the glass up out of the water and pulled out the cloth. The cloth was not wet because the air did not let the water get into the glass.

Debby Brown

Rust

Water moisture causes rust. Rust is a reddish brown coating that shows on iron when it is exposed to air or moisture.

Nails, roller skates, cans, screws and nuts are made of iron. They will rust.

Damp air makes iron and steel rust. Paint keeps air from getting to iron and steel. Salty sea air makes things rust quickly.

Joan Popovich

A Trip to the Riverside Museum

Old Guns

Our class went to the Riverside Museum. We saw several guns in show cases. I spotted one gun that was six feet long. I was certainly surprised. It was used a long time ago about 1810. It was an English gun. I saw another gun. It was very different; it was a blunder buss; it was very old, too. I was extremely interested in everything.

Daisy Slagle

Mineral Crystal

We went to the Riverside Museum. We saw two big rocks that were labeled mineral crystal. We pressed the button and a light came on under the rocks. Then we could see that there were different colors in the rocks. The rocks were very beautiful. I liked them best of everything there at the museum.

Gayle Bena

Flowers

I helped my father make a garden. I dug a hole in the soil and planted rose bushes.

I planted many other flower seeds and watered them.

Harold Thomas

Seeds

One day we put some beans in water. The next day we opened the beans. We looked at them through a magnifying glass. We saw little bean plants. We learned that a seed has a little plant, food for the little plant, and an outside skin or shell.

Billy Stohr

Daisy Seeds

My mother bought some daisy seeds. I brought the daisy seeds to school. I planted some of the daisy seeds in a pan of soil. The seeds grew.

I planted some of the daisy seeds at home. I watered them. The seeds grew at home, too.

Daniel Christy

The Trap Door Spider

Mr. Campbell brought some trap door spiders to school. We have two mother spiders and hundreds of babies. We invited four classes to our Science Fair. I explained about the trap door spider. The trap door spiders make a curious home. They dig a hole in the ground and make a door on top. They find some plants and rocks to put on the door. That is good camouflage. Other animals cannot find them. The trap door spiders protect themselves with camouflage.

Isaac Abenchuchan

The Science Fair

Some of the elementary classes came to our room to see our Science Fair. I told about eggs. I explained about how baby ducks begin to grow. I showed a little chart explaining about baby birds. We had a duck egg in an incubator. My teacher put the egg in the incubator. The egg will stay in the incubator for 28 days.

Irma Gonzales

At our Science Fair my class told about the animals. I told about fish, water bugs and salamanders. The children were very much interested.

Malinda Williams

An Experiment

About two weeks ago my class experimented with seeds. First Ricky and I put a blue blotter in a jar. We put one dozen bean seeds down between the blotter and the jar. Six of the bean seeds were down at the bottom. Six of them were up near the top. Next I poured an inch of water into the jar.

Every day I poured a little bit of water into the jar. The bean seeds at the bottom began to rot. They smelled awful. Six of the seeds began to grow. Their roots were green and white. We watch the jar every day. We are pleased with our experiment.

Debra Robinson

An Experiment

We filled a pan with water. We put a thermometer into the water. Each mark on the thermometer shows 10°. We heated the water. We watched the thermometer rise as the water heated. We wanted to see how high the temperature would be when the water boiled. The water boiled at 212°.

Leeann Turner

Water Vapor

Evaporated water is often called water vapor. Water goes up in the air. We can not see it. We learned that water in a saucer evaporated faster than water in a glass.

Mike Miller

Ice

I put two ice cubes in one glass and two ice cubes in another glass. I put the first glass on the table in the room. I put the other glass outside on the grass in the sunlight. I waited half an hour. I found out that the ice in the glass outside melted faster.

Danny Villavicencio

Lizards

Snakes, turtles, lizards and alligators are reptiles. Most lizards live in hot, dry places. Nearly all lizards have legs and long tails. Lizards move fast. There are many sizes of lizards. In our country, the smallest are about two inches long. The largest are about two feet long.

Wesley Feria

Turtles

A turtle is a reptile. It has a hard shell. Its body is protected by this shell.

Turtles have no teeth. Their jaws have a hard edge.

Turtles lay eggs. They bury their eggs in the ground. The eggs are hatched by the sun.

Turtles do not care for their young.

Some turtles live mostly in water.

Some turtles live mostly on land.

Jimmy Barela

Birds

Only birds have feathers. Any living thing with feathers is a bird. Most birds can fly. Their bones are very light and hollow. All birds hatch from eggs. Birds have no teeth. They have bills. They eat many different kinds of food and build many kinds of nests.

Wayne Witczak

Electricity

Electricity moves through metal wires. Electricity will not go through cloth, paper, wood or rubber. Two wires are needed for an electric circuit.

Electricity does many things to help us in our homes. It can be stopped (off) and started (on). Electricity can be dangerous. Everyone should be careful with electricity.

Nancy Thomason

Weather Chart

In our classroom we have a weather chart. We look at the sky every day.

We paste on a yellow cut-out of the sun when it is sunny. We have colored paper cut-outs for cloudy, windy, and rainy days.

Shirley Adame

Thermometers

We learned about thermometers. We have two wall thermometers. Mrs. Kowalewski showed us a fever thermometer, a thermometer, and a cooking thermometer. All cars have thermometers. A thermometer tells us how warm things are.

Jimmy Bear

We made a thermometer. We put a drinking straw in a bottle of red ink. We put some clay around the straw. We put the bottle in some hot water. The red ink went up in the straw.

We put the bottle in some cold water. The red ink went down. Cold makes a thermometer go down. Heat makes it go up.

Scott Karsh

Junior Palms

In the spring even more than other times in the year many interests spring up to turn the thoughts of the Junior Highers from school.

Here some of the Junior High School students tell you about them.

The Beatles

The Beatles came to visit America from England. Paul McCartney, John Lennon, Ringo Starr and George Harrison visited New York. Millions of people heard of the Beatles on TV. The Beatles songs are "She Loves Me," "Please, Please Me," "I Saw Her Standing There," and "Ask Me Why."

Thousands of people went to hear the Beatles. A man gave the Beatles a trophy. The Beatles were happy. The Beatles said, "We will come to America again next summer." The Beatles paid Ringo Starr and he went back to England because he was ill. The Beatles rode in John Lennon's car to the airport. The Beatles said, "Bye Bye." The Beatles walked up the ramp to the boat and the boat left for England.

Danny Briones

Intramural Baseball

The Tigers, Yankees, Mets and Cards will play baseball every week. Some boys are very interested. The champion team will get a ribbon.

The spring season has good weather. It is very warm. We will play for a long time in March, April and May.

Some boys want to learn to play baseball. Maybe next year they can join B baseball team if they practice often. The boys will play baseball games every week. The boys have to learn baseball. It is fun.

Manfred Krick

The Girls in G.R.C.

The girls in G.R.C. will practice different things for track because next April 18, the

girls will have a meet with other schools.

The people will watch the girls' track meet. Some people hope we will win. The High School and Junior High School will have a meet with the other girls. One girl's name is Jewel DeWitty. She is the best in track. She was very fast in the 100 yard dash, 12.5 seconds. Some girls said it is the **first time the girls will have a girls' track meet.**

Karen DuQuin is second in track. She was fast in the 100 yard dash, 13.0 seconds.

Ellen Thielman was good in the broad jump, 62 inches.

My name is Karen Renno. I'm fast in the 100 yard dash, 14.7 seconds

Diane Degrolice was very fast in the 50 yard dash, about 13.9 seconds.

The four girls, Diane Degrolice, Patty Burrell, Beverly Goldsberry and I, are very fast in the relay, 32.8 seconds for 200 yards.

Karen Renno

My Vocational Work

I am enjoying making things in my vocational shop. I was making copper tooling, a wooden fish, a wall shelf, an ash tray, a wrought iron house sign and a tile table. I am almost finished with my house sign. The things that I will make later are a lamp, a wood carving and something else in wood.

One day Mr. Peters took my tile table to the Indio Fair and I won second place for it. The prize was \$3 and a red ribbon. I am proud of myself because it was the first time that I had entered anything in the fair.

Steven Turner

Our Dance Program

Kathy Kutscher, Steven Turner, Patty Burrell, Kenny Schwartz, Carol Tufts, Bruce Brewster, Johnny Wilson and I practiced dancing to show the other people in Pedley on March 12. Some students from High School practiced singing. Mrs. Schneider taught us to dance. The kinds of the dances were Alley Cat, Bossa Nova, Fade Banquesto, Cha Cha and Rhumba. Kathy and Steven danced Bossa Nova. Carol and Bruce danced Rhumba. Johnny and I danced Cha Cha. We danced Alley Cat and Fade Banquesto as a group.

On March 12, Mr. Lennan drove the bus. Some students from High School and eight of us Junior High students went to Pedley at night. We started the program. Some students sang about eight songs. Some children danced. We finished the program. We ate cake and drank punch. Then we went back to school.

Beverly Goldsberry

My Summer Job

This summer maybe I will have a job working for the newspaper. I will deliver papers. I hope my mother says, "OK". I will be happy.

I will get another job. I will mow and sweep Mr. Bayer's yard. I will be happy this summer if I can earn some money. I will put the money in the bank.

Johnny Wilson

Practice Teachers

Three weeks ago we had Miss Evans for our practice teacher. She was a good teacher. She memorized our names in one day and learned how to fingerspell very fast.

Now Miss Collins is our practice teacher. Our group is interested in the practice teachers because we are glad that they are interested in teaching the deaf. We like to invite some of the people who are interested in the deaf to visit our school. That is why we have so many visitors.

Kathleen Kutscher

Improvement

Last September 10, I came to the California School for the Deaf, Riverside, because I wanted to learn some more in school.

Before I didn't understand a few things about language and reading. But my hearing school was too hard for me because the speech was too fast.

Before the report cards came out in October, I tried to work very hard. Now the report card! I got 2 B's, and 8 C's. I was sixth in my class. I had 3 U's, 7 D's, 13 C's, and 4 B's in hearing school.

It is better here in this Riverside school. I will work very hard now. When the report cards came out in January I had 4 C's, 6 B's, and 1 A. I am fourth in my class. I am better in school.

William Gipple

My Surprise

When I got home about three weeks ago, I was so surprised because I got two puppies. I thought I would have one puppy. My mother got a puppy for us last August. But my mother did not buy the puppy. A woman gave it to us and I am glad that I have two puppies. They are bassets. My other puppy's name is Tommy and he is nine months old and my old dog's name is Charling and he is three years old. They are males. Last August the puppy, Tommy, was always lonesome but now he has fun with Charling. He is always playing with Charling. I love them very much.

Velia Thomas

Homemaking

Miss Meek is my homemaking teacher. She teaches us how to sew, how to knit, how to cook, and how to use the sewing machine. Sometimes she gives us tests.

We made clothes for the Fashion Show. The Fashion Show was on March 27. I really enjoy having Miss Meek for my vocational teacher.

Donna Imburgia

Salute to The Class of 1964

First row: Froetter Nelson, Marsha Sandusky, Carol Visser, Sue Cameron, Mr. Plummer, sponsor; Sylvia Acosta, Sandra Butler, Sandra Thompson, Beverly Osborn

Second row: Raul Pineda, Pat Bybee, Charles Hofer, Gary Cruz, Rene Gamache, Eddie Johnson, Robert Barron, Billy Travis, David Strange, Norman DeLoss

Third row: Lewis Vance, Micky Pohl, Mike Hagar, Walter Cook, Tommy Spears, Ronnie Slobe, Dick Ramborger, Clifford Garbett, Ernesto Murillo

Senior Biographies

Robert James Barron

February 11, 1944
Salt Lake City, Utah

I went to the Alice Birney School and to the Mark Twain School in San Diego before coming to this school in 1957.

I enjoy playing golf.

I hope to get a job in the field of electronics.

Sandra Jean Butler

December 16, 1944
Glendale, California

I attended the Mary E. Bennett School in Los Angeles before coming to the California School for the Deaf in Riverside in 1957.

My hobby is learning new dance steps. My favorite sports are tennis, volleyball and swimming.

I hope to be a beauty shop operator.

Patrick Edward Bybee

November 6, 1944

Oakland, California

Before I came to CSDR I went to the Kendall Manor School. My parents brought me to CSDR when I was eight years old.

In order to reduce the cerebral palsy which I have, I have exercised a lot and I have come to love to play sports. My major interest is art.

Susan Jay Cameron

November 12, 1944

Los Angeles, California

I entered the Mary E. Bennett School when I was three and a half years old. I later transferred to the California School for the Deaf in Riverside.

I hope to go to Gallaudet College. My aim is to become a laboratory technician.

Walter Wesley Cook

October 14, 1945

San Diego, California

My family did not know that I had a hearing loss until I was five years old. When I was six I entered the Alice Birney School in San Diego. At the age of eleven I enrolled in the Mark Twain Elementary School and later I attended the John J. Montgomery Junior High School. Finally I came to CSDR.

I hope that I can attend college.

Jon Gary Cruz

June 27, 1944

Los Angeles, California

When I was about six years old, I went to the Mary E. Bennett School for several months. I left that school and did not go to school for almost three years. I entered CSDR when I was nine years old.

My favorite sports are football, track, wrestling, and boxing.

I hope I will be able to go to Riverside City College or to a trade school.

Norman Warren DeLoss

September 27, 1944

Sioux Falls, South Dakota

I went to many different schools in Ohio. Then in 1959 I went to the Tennessee School for the Deaf for a year. I came to the California School for the Deaf in Riverside in 1960.

My favorite sports are football, track, hockey, wrestling and basketball.

I hope I get a job in the field of electronics.

Rene Amos Gamache

January 23, 1945

San Diego, California

I attended the Alice Birney School from 1948 to 1954 after which I enrolled at CSDR.

My favorite subjects are reading, English and chemistry.

My favorite sports are football and track.

I hope to attend Riverside City College and Fresno State College and study electronic engineering.

Clifford James Garbett

April 14, 1945

Binghamton, New York

I attended the school for the deaf in Rome, New York, from 1949 to 1955. We moved to California in 1956. In the fall of 1956 I enrolled at CSDR.

My favorite sports are football and track.

I hope to have my own bakery business.

Michael John Hagar

October 1, 1944

Santa Monica, California

At the age of five my parents took me to the John Tracy Clinic. From there I went to an elementary school in Santa Monica until I was enrolled at CSDR in 1953.

I like all sports.

My ambition is to go to Riverside City College next year and study advanced upholstery. My parents are now living in Las Vegas, Nevada.

James Hernandez

June 28, 1944
Los Angeles, California

I started school when I was five years old. I entered the New Mexico School for the Deaf. After two years in that school my family moved to California and I was enrolled at the Mary E. Bennett School. In September of 1956 I entered CSDR.

My ambition is to be a draftsman. I hope to attend Palomar Junior College to further my studies.

Charles Ambrose Hofer

April 10, 1944
Los Angeles, California

At the age of two my family moved to Encinitas. I could not go to school for about four years because I had polio. I entered CSDR after I had recovered.

I hope to be able to attend Palomar Junior College. I want to study to be an electrician.

Edward George Johnson

October 27, 1944
San Diego, California

Before coming to CSDR in 1960, I went to the Alice Birney School in San Diego, to the Robert Louis Stevenson Elementary School and the Benjamin Franklin Junior High School in Long Beach.

My hobby is coin collecting. My favorite sports are basketball, wrestling and track.

I hope I can get a job in an offset printing shop.

Ernesto Ruiz Murillo

November 7, 1944
Chihuahua, Mexico

I was born in Mexico. My family moved to Texas in 1949. I did not go to school in Mexico or in Texas. In 1954 my family moved to California. I was eleven years old when I came to CSDR. I have been very happy here and have learned a lot.

My favorite sports are basketball, football and track.

I hope to be a printer.

Froetter Mae Nelson

January 8, 1944
Port Arthur, Texas

I went to the Mary E. Bennett School, to the Theodore Roosevelt School, and to the Franklin Roosevelt Junior High School before I enrolled at the California School for the Deaf in Riverside in September, 1958. I like this school the best.

I hope to get a power sewing job.

Beverly Ruth Osborn

April 29, 1944
Upland, California

I went to the Westmont School in Pomona for two years. I came to CSDR in September, 1953.

My hobbies are playing cards and reading. My favorite sport is badminton.

I hope I get a power-sewing job.

Raul Rosendo Pineda

December 9, 1943
Morelia Michoacan, Mexico

I first attended the St. Joseph Cathedral School in Mexico where I learned to speak and understand Spanish.

My family moved to the United States in 1957. I went to a public school in La Puente, California for five years after which I enrolled at CSDR.

Next year I would like to go to a trade school in Los Angeles.

Michael Charles Pohl

November 19, 1944
Los Angeles, California

I attended the John Tracy Clinic and the Mary E. Bennett School before I came to CSDR in February, 1956. In 1957 I left. I went to several schools in California and to a school in Eugene, Oregon. Finally I re-entered CSDR in 1960.

My hobbies are number painting and reading surfer magazines. My favorite sport is surfing.

I hope to get a job developing photographs.

Nancy Lillian Price

March 25, 1945

Portland, Oregon

I began school at the Sunshine School in San Diego, California. I have been a student at CSDR for eleven years.

I enjoy bowling and swimming. My hobby is sewing.

When I finish school, I hope to get a job. This summer I plan to help with crafts at the crippled children's camp.

Richard Albert Ramborger

February 22, 1944

San Diego, California

I started school at the Alice Birney School when I was four years old. I enrolled at the California School for the Deaf, Riverside, in 1955. I like it because it is a very good school.

I like all sports but I am most interested in the javelin throw. I entered the International Olympic Games for the Deaf at Helsinki, Finland, in the summer of 1961 and I came in eighth. I have a good chance of entering the Olympic Games in Washington, D.C., in 1965.

My ambition is to go to college and to be an electronic technician.

Sandra Jean Ritter

August 25, 1944

Madison, Wisconsin

I went to Lapham Day School in Madison, Wisconsin; to the school for the deaf in Delavan, Wisconsin, and to Roosevelt Jr. High School in Compton, California. This is my second year at CSDR.

Swimming and bowling are my favorite sports.

When I finish school I hope to get a job.

Marsha Sandusky

September 25, 1944

Los Angeles, California

I have lived in Los Angeles all of my life.

I attended a nursery school in Los Angeles, the Monticello School for Girls,

the Mary E. Bennett School and Le Conte Junior High School before I entered the California School for the Deaf in Riverside in 1959.

My aim is to go to Gallaudet College or to an I.B.M. school.

Ronald Gerald Schillinger

September 25, 1944

Los Angeles, California

The first school I went to was Mary E. Bennett School in Los Angeles. I have been a student at CSDR for eight years.

I enjoy ping-pong. My favorite hobbies are mathematics and puzzles.

I hope to get a job in a bakery after I graduate.

Ronald Dean Slobe

March 1, 1944

Hull, Iowa

My family moved to San Diego, California, from Iowa when I was two years old. The first school I attended was the Alice Birney School in San Diego. Later I attended classes for the hard-of-hearing at Roosevelt Junior High School and at Monterey Junior High School.

In 1957 I entered CSDR.

I enjoy all sports, but my favorite one is basketball.

My aim is to attend Riverside City College where I would like to continue my training in printing.

Thomas Gregory Spears

May 8, 1944

Los Angeles, California

I started school when I was six years old. I first attended the school for the deaf at Salem, Oregon. Later, I entered public school in Cascade, Oregon. In 1956 I attended a church school in Los Angeles. From there I went to San Marcus and the Valley School near Escondido. In 1958 I came to CSDR but left in 1960 to attend a church school in Yucaipa. In 1961 I entered the Valley High School in Redding. I re-entered CSDR in the fall of 1962.

I hope to go to Riverside City College.

David Lawrence Strange

July 13, 1944

Los Angeles, California

I went to the John Tracy Clinic, to the La Canada Elementary School, to the Mary E. Bennett School, and to the McKinley School before I came to CSDR in 1957.

My hobbies are hunting, fishing, and working on my hot rod. I like many sports.

I hope to get a job in the field of electronics.

Wynona Lynn Stratemeyer

December 22, 1945

Montebello, California

I began school at the Mary E. Bennett School in Los Angeles, and then I went to the Montebello School for six years. I have been a student at CSDR for seven years.

I enjoy swimming and volleyball and my hobby is baking.

When I finish school I hope to get a job.

Sandra Madrene Thompson

October 10, 1944

Spokane, Washington

My family moved to California from Washington. I attended the Sunshine School in Arlington for two or three years. I enrolled in this school in February, 1953.

My hobbies are reading books and writing letters. My favorite sport is bowling.

My aim is to be an electronic assembler or a housewife.

William Louis Travis, Jr.

July 25, 1944

Indianapolis, Indiana

The first seven and a half years of my education were obtained at the Indiana School for the Deaf.

My family moved to California in April of 1956, and the following September I was enrolled at CSDR.

My favorite sports are boxing and baseball. My ambition is to enter Riverside City College. I would like to be a draftsman when I finish junior college.

Carol Jeanne Visser

July 12, 1944

Grand Rapids, Michigan

I attended the Oral Deaf School in Grand Rapids for eleven years. We moved to Redlands, California, in 1959. In September of that year I entered CSDR.

I hope to become a cosmetologist.

Lewis Daniel Vance

October 21, 1944

Los Angeles, California

I attended the Mary E. Bennett School about two years. I went to a school in Glendale for one year. Then I came to CSDR in 1953.

My favorite sports are track and wrestling.

I hope to be a printer or a welder.

BOOK REPORTS

High School—

TITLE: *Julius Caesar*

AUTHOR: John Gunther

This story was about Julius Caesar, a Roman who as a boy had many ambitions to become a dictator of the Roman Empire.

When he was a young man, he was captured by pirates and set free for ransom. Then he captured the pirates that had captured him.

At 19 years of age he entered public life and was appointed assistant orator. Later he was appointed Pontifex Maximus, the head of the principal college of priests. Then he became a consul and formed a new system for ruling Rome with three consuls which he called the Triumvirate.

Later he became Governor of Gaul and general of several legions. He fought in battles for nine years and didn't get one scratch.

Finally he came to Rome and got in trouble because most of the Senate hated him. He fought against his Roman enemies and won. He became Dictator of Rome for ten years. People offered to make him an Emperor, but he declined. He attempted to become Dictator. He attempted to become dictator for life, but some of the senators assassinated him.

This book thrilled me and made me feel like I was in the book and living in the glory of past times. It seems that no man can become dictator of the world.

Rodney Nunn

Junior High School—

TITLE: *These Happy Golden Years*

AUTHOR: Laura Ingalls Wilder

Characters: Laura Ingalls, Mr. and Mrs. Ingalls, Almanzo, Carrio, Mary

This story tells about Laura who left home to teach school so she could earn some money to send her blind sister to college for the blind. Laura liked to teach school but she hated to live with Brewsters, because they were so mean to her. Every Friday a young man came to take Laura home for weekends. Almanzo's love made Laura happy. Every Sunday Alman-

zo came to take Laura for a ride.

In the spring Laura became engaged. Laura was teaching and got a certificate. Her mother bought a new sewing machine, so Laura and her mother could make a wedding dress. When Laura was eighteen, she and Almanzo got married. This story was very good and it tells how Laura helped her blind sister and earned her own living.

Ellen Theilman

TITLE: *Besty Ross*

AUTHOR: Ann Weil

CHARACTERS: Betsy, Sarah, Mother, Mary, Susan, Father

This story tells about a woman who made the American flag.

Betsy was the maker of the nation's original emblem. She was a seamstress of Philadelphia, and was commissioned by a committee, headed by General George Washington, to make the flag in June, 1777.

Mrs. Ross's flag, containing the thirteen red and white stripes and the blue square with thirteen stars in a circle, met with instant approval, and she was given the contract to make all flags for the government. We honored Betsy Ross because she made the American flag.

Mary Ann Rose

Elementary School—

The title of the book is *Scat, Scat*.

The author is Sally R. Francis.

The illustrations are by Elizabeth E. Colli-son.

The main character is a cat that hadn't any home. It was angry because a woman swept it out into the street.

I liked it because it was a good story.

Nikki Roberts

The title of the book is *The Unlike Twins*.

The author is Charlotte Becker.

The main characters are two unlike twin boys who bought two unlike twin dogs. They all went to the park and fed the wild animals.

I liked it because it was interesting.

Laura Escobar

Sports Events

CSDR's Gym Jam

The Physical Education Department's annual tumbling program, called the Gym Jam, was presented in the gym on the nights of April 14 and 15. This program by the members of the tumbling team is directed and produced by the staff of the Physical Education Department. Mr. William May also helped with the teaching and directing.

The program included tumbling, warm-ups and individual stunts developed on their own by various individual or groups of students. Exercises on the side horse, rings and trampoline were demonstrated by selected students. Most of the students participated in one of the following dances: "Me and My Shadow," "Square in Rhythm," "Corrido," "Tango," and "Jazz Movements." The "Tango" danced by Lily Miller and Rene Gamache was particularly interesting because of the comedy included in their routine. Slapstick comedy was provided by our two "little boys," Burton Quartermus and Genaro Abenchuchan.

After the final program the members of the tumbling team had refreshments in the club room. This year's officers of the organization are: President, Rene Gamache; Secretary, Burton Quartermus; Treasurer, Nancy Burrell; Managers, Nancy Burrell and Ronald Scolaro. The faculty committee was Miss Emerick, Mrs. Convery, Mr. Lanzi, Mr. Thornton and Mr. May.

Baseball

Our baseball team got off to a better than average start this year even though we lost the first game to Big Bear, 6 to 2. In this game the boys played well and looked pretty good for the first game of the season.

Against Twin Pines the team began to do more hitting and won by the score of 10 to 5. This game featured a homerun by Jack Lamberton and triples by Tony Hackett and Warren Duckworth.

Playing Aquinas at home, CSDR jumped on their lefthander Cullen for 5 runs in the first inning, but Foral was brought in and the Cubs were unable to get any more runs. Loose defensive play and wild pitching combined with some heavy hitting by Aquinas led to a 19-5 defeat in this one.

Notre Dame's nine also took advantage of

poor fielding and wild pitching and defeated the Cubs 20 to 1 in a game played on our diamond.

Girls' Physical Education

The Girls' Athletic Association and Girls' Recreation Club of CSDR will be the host groups for the Girls' All-City Track Meet on Saturday, April 18, 1964. The meet is sponsored by the Riverside Recreation Department. The meet will start at 9 a.m. and end at 11:30 a.m. There will be 200 girls participating from the Riverside Junior and Senior High Schools. Ribbons will be given for first, second and third place winners.

The field events are: the softball throw for distance and standing broad jump. The girls from CSDR who hold city records are: Alice Sargent, 8th grade level, in the softball throw. Her record is 174 feet and 10 inches. Viola Wooley, 12th grade level, in the softball throw. Her record is 145 feet. Bobbie Hutcheson, 12th grade level, in the broad jump. Her record jump is 6 feet and 2 inches.

The track events are: 50 yard dash, 100 yard dash, shuttle relay (4 team members with each member running 50 yards) and baton relay (8 team members with each member running 55 yards). The following CSDR girls hold records: Jewel DeWitty, 8th grade level, in the 100 yard dash. Her time was 12.8. Bobby Hutcheson, 12th grade level, in the 100 yard dash. Her time was 14.2.

Girls' Track Meet

The Riverside City Park and Recreation Department held its third annual all city girls' track meet at CSDR, Saturday, April 18. The meet featured individual competition between girls in each grade level from 7th to 12th grade. There were six events on each grade level. These were: the standing broad jump, the softball throw, the 50 yard dash, the hundred yard dash, a shuttle relay and a baton relay.

Junior high schools represented were Allessandro, Arizona, Central, CSDR, Gage, Jurupa, Moreno Valley, Sierra and University. High schools included CSDR, Notre Vista, Moreno, Poly, Ramona and Rubidoux. Over three hundred girls participated in the various events.

CSDR placed several girls in the semi finals and won some of the ribbons in many of the events.

CSDR Leads Arrowhead League!

Track

As of the writing of this article the CSDR track team is undefeated for this year. In four dual and triangular meets our varsity has completely dominated all opposing schools.

	A	B	C
CSDR	79	44	31
Boys' Republic	27	51	54

CSDR	85	80	21
Rim	37	34	63
Big Bear	9	1	0

CSDR	84½	71
Aquinas	21½	46
Big Bear	10	0

CSDR	84¾	75½
Notre Dame	23¾	15½
Moreno Valley	14	24

Although the team is doing very well as a total unit, several boys have done outstanding work. In the "B's" John Wilcox and Keith Gamache have done so well that they seem sure to make the varsity and earn their varsity letters. John broke his own record on the high hurdles this year with a time of ten seconds flat. Keith has broad jumped 21 feet, 3 inches, which sets a new school "B" record. Both of these boys also do well in their other events and on the relay team. Other "B" team members who are outstanding are: Mike Bielik in the 100 yd. dash, high jump and pole vault, Danny Cisneros in the 660 and the shot put and Tom Green in hurdles and high jump.

On the varsity several of our boys are approaching records which should qualify them for membership on the Deaf Olympic team.

Some of these are near to being National Deaf Records. Stephen Strange with 11'3" in the pole vault, Jerry Moore with a shot put of over 45 feet and a 10.6 in the hundred yard dash, Burton Quartermus in the hurdles and broad jump, Mike Mahoney with a 4:50 mile, Greg Wilson and Tommy Parker in the high jump. Other fine performers are Jackie Long, Rudy Villa, Robert Pealaterre and Jay Shopshire. Scott Vermilya should move up from "C" to "B" on the basis of his fine performance in the 1320 yard run.

Our undefeated team looks like the favorite in the Arrowhead League Meet to be held at Chino High School at 10:00 a.m. Saturday, May 9, 1964. They should remain undefeated for the remainder of the season and should qualify for national standings for schools for the deaf.

Vocational News

Easter Parade

The Vocational Department presented its annual Fashion Show on March 27.

Students pictured are: Alana Nunn, Patty Burrell, Sandra Russell, Barbara Carr and Judith Tamez.

Fashion Show Feelings

Last March 27 there was a fashion show in the Social Hall. We sewed a dress or a skirt and a blouse. We practiced for two weeks but when the day came, I was afraid to walk down the aisle. Then it was time; I surely was nervous. Then it was my turn to go onto the stage. I was scared because there were so many people. I could feel my heart beat very fast as Jeanne and I walked down the aisle. When the fashion show was over, I was relieved.

Patty Burrell

Keypunch Training at RCC

Last March 16, five of us—Laura Dinndorf, Carol Visser, Marsha Sandusky, Sue Cameron, and Dale Ice were chosen to go to Riverside City College to learn keypunch operation. We are learning quite well and it is fun to operate the keypunch machine.

The reason we are learning this is that the Department of Health, Education and Welfare is trying out films consisting of lessons. We try to follow directions and learn the parts of the keypunch machine. We learn to make a program card which controls or "tells" the machine what to do. We are learning to punch employee cards but there are many more different cards besides the employee cards. The machine works like an electric typewriter.

This summer, the U.S. Department of Education will figure out if we can learn from the films. If we succeed in learning, schools and colleges will use the films to teach data processing to deaf students in our country. We hope that it will be successful so that other schools can teach keypunch.

Sue Cameron and Dale Ice

Guests for Lunch

In our Homemaking II class we are having guest meals every Thursday in April. Our first meal on April 9 was a Spanish luncheon. We invited our girl friends from the dorm. We made enchiladas, Spanish rice, refried beans, green salad and chocolate sundaes. The girls liked our cooking very much. During the next few weeks we will have luncheons for teachers and an elementary school class. Our last project will be a dinner party. We will use decorations from Hawaii and we will each invite a boy. Next time maybe you will eat with us.

Karen Thompson

Recipe of the Month

Carrot Cookies

- $\frac{3}{4}$ cup shortening
- $\frac{3}{4}$ cup sugar
- 1 egg, beaten
- 1 cup cooked carrots, mashed
- 2 cups sifted flour
- 2 teaspoons baking powder
- $\frac{1}{2}$ teaspoon salt
- 1 teaspoon vanilla
- $\frac{1}{2}$ cup nuts

Cream the shortening and sugar together until smooth, add the egg and carrots and mix well. Slowly stir in the flour, baking powder and salt. Add the vanilla and nuts and mix well. Drop by teaspoon on an ungreased cookie sheet. Bake at 400° for 20 minutes.

Icing

- Combine and mix well:
- 2 tablespoons soft butter
- 2 tablespoons orange juice
- $1\frac{1}{2}$ cups powdered sugar
- 1 teaspoon grated orange rind

Leisure Time Events

Junior NAD Year End Report

The CSDR branch of the Jr. NAD, consisting of sixty-two high school student members and the two sponsors, Mr. Lawrence Newman and Mr. Carl Barber, held a series of interesting and informative meetings this year.

Mr. Meyer Lief from New York spoke to the group concerning the responsibilities of the deaf as citizen. Mr. Thomas Fishler, a teacher at CSDR, discussed emotional maturity while driving.

The Jr. NAD assumed as its special project for the year the collecting of a sum of money to help deaf children in Malaya.

Mr. and Mrs. John Hooper are presently with the Peace Corps in Malaya and information was received from them concerning the needs of the deaf children in that country. Mrs. Hooper is a former teacher at CSDR.

The last meeting of the year will consist of the election of officers for the organization for the next school year.

Girl Scout Troop 175

Girl Scout Troop 175 went to the beach. The name of the beach where we went was La Coastas Beach. I went home and I was very sad because I wanted to go to the beach. So my mother said, "O.K., you may go." My parents took me to the beach. We went to Doheny Beach. The man said, "You will have to go to the other beach. It is about 38 miles from Doheny Beach to the other beach." When we got there, all of the girls had gone to bed but my counselors were up. They were very surprised because I came down. I went into the tent and my father unrolled the sleeping bag for me. Two girls were up and they were surprised that I came down. So the next day all the girls were surprised. So we all talked and cooked our breakfast.

Later it was getting cold but other boys were at the ocean to surf. After lunch we changed into our bathing suits and ran down to the beach. I got a windburn. I was very mad because I wanted to get a suntan. Later we went swimming in the ocean. After that we went to the tents to change our clothes to play clothes. When it was time for supper, we ate our supper. After supper we went to the fire ring to cook our marshmallows. After that we went to bed. Two of the tents fell

down at night because of the wind. Next day it was very cold so we went back to school early. We had lots of fun at the beach. All of the Girl Scouts got windburns.

Barbara Carr

Camping at Death Valley

Friday noon, March 20, after lunch at school Mr. Hoxie, Mr. Lennan, Mr. Peters and seven boys and I went in two cars to Death Valley. At about three o'clock the "suburban" had a flat tire. We arrived at Death Valley at dusk. After we made camp, we had our dinner. After dinner we went to Furnace Creek and bought souvenirs.

Saturday morning we went to Scotty's Castle which was about 56 miles from our camp. It is a very beautiful castle. From there we visited the ruins of the Harmony Borax Company. When we arrived back at our camp, we found our tents down and some of the tent poles partly damaged by the wind! Later we straightened everything out.

After we had our lunch, we went to Golden Canyon, Red Cathedral and Manly Beacon. They were beautiful beyond description. We also visited the Devils Golf Course. I think it was a good place for the Devil to play golf! We stopped at Badwater Lake which is 279.8 feet below sea level. Some fools like me tried to taste the water. It was more salty than the ocean.

Sunday morning after breakfast we broke camp and drove across Death Valley, the Panamint Range, Panamint Valley, the Owens Range and Owens Valley. Suddenly the Sierra Nevada Range came into view. It was the first time I had seen the range of mountains.

We passed through a snowstorm while driving through Cajon Pass.

It was a wonderful trip and we were tired when we returned to school.

Rodney Nunn

Junior Pepsters

The annual Junior Pepsters' party was held in the teachers' lounge. Refreshments were served. Pins were given to Jackie Miller, pepster leader, and to Janet Smith, Sandra Russell, Kathy Carlsen, Rosie Kutscher, and Lily Miller, cheerleaders. The next meeting will be held in the fall.

Continued on Page 24

Pachappa I

Stephen Davick and his family spent some time at the beach. While there they caught a baby seal. They fed it some fish and let it go.

Paul De La Cruz received his first Holy Communion in February in Immaculate Conception Church, Old Town, San Diego, California.

Pachappa II

One Saturday in February, some Ticket-holders came and entertained Ricardo Castelum, Maurice and Jose Abenchuchan, Roger Lewis, Gerald Bragg, Allon Stigall, Terry Robertson, and Mark Starrett with games. At noon they had a picnic lunch on the lawn, and after that there was a peanut hunt.

Mark Starrett's family moved to a different house in Whittier.

Eddy Kollmeyer and Ricardo Castelum were in a fashion show on Saturday, March 21. The show was held in the Social Hall.

Pachappa III

Merle Levey saw the play "Heidi" at the Downey Children's Theater.

Cynthia McGee went to the Orange Show. She had fun riding the funny cars.

Robin Leisinger went with her parents to see Cinerama.

Jill Meinke went to the beach with her parents.

Rubidoux I

An Easter party was given for Rubidoux I boys by the student teachers living there. The boys have enjoyed having Miss

Zoe Helen Collins living in their buildings. They had an Easter egg hunt and Mike Miller found the most eggs.

We have chosen captains for our four intramural baseball teams. They are Todd Brown, Mike Butterfield, Kenny Watson and Danny Smith.

Rubidoux II

The girls in Rubidoux II were visited by some girls from a teenagers club in Corona. They brought all the fixings for a party, even a lace tablecloth.

Sharon Ingenthron, Deborah Campbell, Debra Robinson, Shirley Adame, Joy Havs-gaard, and Cathy Ortega helped the hostesses from the club.

Janet Harbert's mother and father invited Janice Sickinger to spend the weekend with them. They went to see Janet's grandma who has a cabin in the mountains. They had a good time sleigh riding in the snow. Janet went faster than the sled one time and came back with a bruised chin which turned black, blue, green and purple.

The next weekend Janet went to Janice's home and again both girls had a very happy time.

Loddy Gonzales received a letter from her aunt who lives in Paris, France. Loddy wanted to answer the letter but her French is not too good. After looking around, she found someone who knew some French to help her get a letter off to her aunt.

Rubidoux III

Malinda Williams and her family went to Ohio the week before spring vacation. They stayed for two weeks visiting relatives.

Chris Buchholz was the candle lighter at her sister's wedding on March 21.

Kathy Powell entertained Vickie Manchester at her home one weekend. They went to Pacific Ocean Park where they had lots of fun.

Shasta I

Several girls celebrated birthdays in March. Some of them had parties at home as well as at school. They came back wearing numerous new clothing items. Those having birthdays were: Loretta Conti, Connie Davis, Laura Dinndorf, Nancy Price, Jewel DeWitty and Marsha Sandusky.

Nancy Price had Nona Stratemyer and Nancy Wilson as her weekend guests. Nancy enjoyed planning the memorable events to be shared with her friends. The girls not only went to the Orange Show in San Bernardino but also had the pleasure of seeing Harpo Marx appear with the Riverside Symphony Orchestra.

Shasta II

Shasta II girls donated a new atlas to the dormitory in memory of Mrs. Greathouse.

Dorothy Anderson, a former student at CSDR, has returned. She is in Shasta II replacing Jeanette Cambaliza who moved to the Berkeley school.

Margaret Rose took a trip during spring vacation. She went to Texas with her family to visit her grandmother.

Shasta III

Velia Thomas went to her sister's wedding March 21. It was held at a friend's house. Her new brother-in-law's name is Richard.

Lily Miller got excited when her brother's poodle had five new puppies on March 22. There were two black, two white and one apricot colored poodles. Lily has the apricot one reserved for her.

Shasta IV

In Shasta IV the girls were surprised and very happy to place second in the dormitory inspection.

Jeanne Buller went home sick and missed not only the trip to Doheny Beach with

the Girl Scouts but also the birthday party for Vicki Manchester and Patty Burrell.

Palomar I

Have you noticed a change in Dick Ramborger? Could it be that the reason is that he is the proud uncle of a baby boy?

One night we were allowed to stay up until 12:05 a.m. to watch a program on TV. Then we read the story in Literary Cavalcade. Seeing the movie before reading the story made it more enjoyable.

This is a busy time for all of us with school so near the end. This is the last year for many of the students and they are already thinking about how they will miss CSDR.

Palomar II

About 14 boys from this dormitory signed up and attended a dance at March Air Force Base's Teenager Center last Saturday night where they danced and had a wonderful time.

Palomar III

Fire broke out recently in the room in which Mike Campbell and David Clark live. The damage to the contents of the closet was valued at several hundred dollars.

The fire was controlled by the sprinkler system. Two units from station No. 3 in Magnolia Center were dispatched and fireman cleared the building of water and smoke.

A fire department spokesman said cause of the fire was unknown.

Gerald Williams was a very lucky boy. He went to Ohio to visit many relatives and friends during Easter vacation.

Genaro Abenchuchan, David Conti, Tom Green, Tommy Parker, John Smith and Steven Stratemeyer went to Death Valley for a weekend with the Boy Scouts. A perfect time was enjoyed by all.

Leisure Time Events

Continued from Page 21

Girl Scout Troop 337

The girls presented the dance program which they had been working on to all the students in the lower school area as well as to the parents and friends of the "Ticktockers" who worked with them. A couple of weeks later they presented it again to the Magnolia Elementary School. All the girls did a fine job and had lots of fun too. After the second presentation the girls were given their costumes to take home. Each girl who participated earned her "Dance" badge to add to her sash.

Cookie sales this year were very good. Each girl sold her quota of eighteen boxes making a total of 594 boxes. We were able to realize a profit of \$41.58. During this sale our girls outsold all the troops in the council, a feat that makes me extremely proud.

Our second overnight of the year is planned for April 18-19. We are again venturing to the mountains. We are going to Azalea Trail Camp which is near Idyllwild. The girls who attend this outing will complete requirements necessary for obtaining their "Camper" badge, but only if they also attended the campout at Lawler, as the badge requires two overnights.

This year has been quite successful as the girls have been extremely eager to learn and do. However, we hope that next year's junior program can be expanded to include even more activities.

Virginia Baker
Leader

Student Body Organization

The Student Body Organization had a field day called, "Spring Leap Year Field Day" on April 18 from three to ten p.m. The students played softball and other games on the athletic field and swam in the swimming pool from three until six. A picnic was held from six to seven on the patio beside the swimming pool. After the picnic a dance was held in the exercise room.

We, the student council members, are happy that you, the students enjoyed the field day.

The social chairmen, Connie Paine and Greg Decker and the various committees did a wonderful job planning the field day. They deserve our applause.

This was the last activity for this school year given by the Student Body Organization.

Jack Lamberton,
Secretary

Type Lice Outing

The Type Lice Club has planned an all-day educational field trip to Los Angeles to tour the Herald-Examiner newspaper on Wednesday, April 29. This newspaper is one of the two large daily papers published in the Los Angeles metropolis.

The club will have as its guests all high school students who are enrolled in the Graphic Arts classes. After the morning newspaper tour the group will have a noon picnic lunch in Exposition Park. Following this it will observe exhibits in the Los Angeles County Museum. The afternoon had originally been planned as a tour of the Pacific Press, Inc. plant which publishes the Western edition of Life, Time, Sunset and Sports Illustrated magazines but due to a scheduling conflict this tour had to be cancelled for this year.

Accompanying the group will be Mr. Rahm-low, Mr. Lindholm and Mr. Fishler

Robert Zech Becomes C.S.E.A. Representative

Mr. Robert Zech, who recently resigned as Supervising Counselor of Area III, will be missed by many on the CSDR campus because of his varied activities.

He began by working as a counselor in September 1955 and became the first Supervising Counselor of Area III in September 1957.

Mr. Zech developed an active intramural program in his area, helped plan and organize the Student Body Organization and was active in the Boy Scout Program. He was an active member in C.S.E.A., holding many offices in the local chapter including the presidency, and it is by this organization that he is presently employed. He is now a C.S.E.A. area representative working out of the San Francisco office. Mr. Zech took with him wishes for success in his new venture from both staff and student body members at CSDR.
